

	<p>Advanced Industrial Components (AIC) is a full range manufacturer of heat exchangers and heat transfer equipment. AIC's product ranges widely, from standard brazed plate and shell & tube heat exchanger for residential use, to custom plate and frame, U-tube, and shell & tube exchanger for commercial/industrial use, to sophisticated lethal service reactors.</p>	<p>www.aicheatexchangers.com</p>
	<p>Air2O is a multinational corporation that design and manufacture residential, commercial and industrial cooling solutions and intelligent control strategies delivering industry leading energy efficiency. Product lines include: ultra-efficient Indirect/direct package AC systems, hybrid package AC systems, smart supervisory control systems and ultra efficient evaporative recovery systems.</p>	<p>www.air2o.com</p>
	<p>Air Concepts, Inc. is an air distribution manufacturer specializing in unique air distribution products. They design innovative products quickly with the needs of your next project in mind.</p>	<p>www.airconceptsinc.com</p>
	<p>Alliance Air Products (AAP) provides custom Heating, Ventilation, Air Conditioning and Refrigeration equipment, serving the OEM, Design-Build and Plan & Spec markets. Each unit is engineered to meet specific project requirements; packaged systems, DX condensing units, fluid chillers, boiler/heating systems and custom air handlers. Our units are certified by ETL and AMCA.</p>	<p>www.allianceairproducts.com</p>
	<p>Berner International has established itself as the leading manufacturer of air curtains/air doors and related products.</p>	<p>www.berner.com</p>
	<p>Big Ass Fans are the ideal air-moving machines for any commercial space, small or large. They work with existing HVAC to improve energy efficiency and can be personalized to stand out or blend in with any unique décor.</p>	<p>www.bigassfans.com</p>
	<p>Bosch (Buderus) products are known for quality, innovation and setting the standard for efficient, reliable heating equipment. The Bosch product line features energy-efficient cast iron boilers, commercial condensing stainless-steel boilers and tank less hot water heaters.</p>	<p>www.bosch-climate.us</p>
	<p>Breezair delivers quiet and powerful cooling that's energy efficient. Being the first corrosion-free, all-plastic rooftop evaporative air conditioner, and the first and only evaporative air conditioner with inverter technology, Breezair leads the world in evaporative cooling technology</p>	<p>www.breezair.com</p>
	<p>ClimaCool is a leading manufacturer of Green commercial and industrial modular chillers and packaged rooftop products promoting sustainability and energy efficiency in the new construction and retrofit markets.</p>	<p>www.climacoolcorp.com</p>
	<p>ClimateCraft Inc. is an industry leader in the manufacturing of custom air handling units. Our units can be applied in healthcare, institutional, commercial and industrial applications. We offer "Access" units that are specifically engineered for site fabrication for use in retrofit and limited space applications.</p>	<p>www.climatecraft.com</p>
	<p>Climate Wizard offers a high performance and extremely efficient indirect evaporative air conditioner. It uses the same principles as traditional evaporative cooling, but does not add water to the air as it cools. It works by drawing in hot outside air and passing it through a heat exchanger. Warm, moist air is expelled, while cooled, but otherwise unchanged air is delivered into the space.</p>	<p>www.climatewizard.com</p>
	<p>Desert Aire's in-depth understanding and application expertise provide unequalled support in choosing and installing dehumidification and DOAS solutions correctly. Their engineering and manufacturing standards further strengthen results and ensure your long-term success</p>	<p>www.desert-aire.com</p>
	<p>The premier manufacturer of gas fired infrared heating equipment, Detroit Radiant offers an exclusive line of Re-Verber-Ray® high and low intensity radiant heaters and patio heaters for commercial, industrial, agricultural and residential heating applications.</p>	<p>www.reverberray.com</p>
	<p>DUCTSOX fabric air dispersion systems are used to distribute and disperse air in open ceiling architecture, are cost effective, and can be an aesthetically attractive alternative to metal ductwork. Ductsox also provides solutions for under floor and laboratory applications.</p>	<p>www.ductsox.com</p>
	<p>Florida Heat Pump/Bosch Thermotechnology offers highly efficient water source heat pump heating and cooling solutions for retrofit and new construction applications.</p>	<p>www.bosch-climate.us</p>
	<p>Franklin Control Systems has deep technical and manufacturing strengths in several areas that are of strategic interest including variable frequency drives and starters. The demand for electronic drives and controls for pumping applications is growing rapidly because these devices allow our customers to reduce energy cost, increase system life, and manage system parameters such as pressure and flow.</p>	<p>www.franklin-controls.com/</p>
	<p>GREENHECK is the leading supplier of air movement and control equipment including fans, dampers, louvers, kitchen ventilation hoods, energy recovery, make-up air units and laboratory exhaust.</p>	<p>www.greenheck.com</p>
	<p>Hartzell Air Movement provides FRP and stainless steel construction, specialty coated blowers and fans for corrosive environments, heavy industry, wastewater facilities, high technology, marine, and power generation applications.</p>	<p>www.hartzellairmovement.com</p>

	<p>Hydronic Components Inc (HCI), provides manual and automatic balancing valves & hose kits, Pressure Independent Control Valves and a patented Filter Ball design with an intergraded back flush feature. HCI components are 100% leak tested, bagged & tagged into a single package for easy installation and backed by a 5-year warranty.</p>	<p>www.hciterminator.com</p>
	<p>Humidifirst is committed to being the innovative leader in ultrasonic humidifier technology. As a result, they continually test their products to find ways to improve them.</p>	<p>www.humidifirst.com</p>
	<p>Insul-Pipe Systems is a Southwestern based manufacturer of pre-insulated pipe and pipe fittings for underground and above ground uses, suited for chilled and hot water and steam applications. Servicing the military, medical, educational and municipal institutions.</p>	<p>www.insul-pipe.net</p>
	<p>Lennox Commercial is a leading provider of high-efficiency packaged rooftop units, split systems, VRF, HVAC controls, VRF, furnaces and indoor air quality products for the light commercial industry. Committed to helping our customers through advanced products and unsurpassed customer service, Lennox Commercial delivers effective HVAC solutions that improve comfort and protect profits.</p>	<p>www.lennoxcommercial.com</p>
	<p>Metal-Fab Commercial Venting Products offers the most complete line of chimneys, vents, special vent for condensing appliances, fume exhausts, engine exhausts, and factory-built kitchen ventilation systems available. Their innovative product offerings are designed to meet the changing needs of the industry.</p>	<p>www.metal-fabcommercial.com</p>
	<p>Neptronic. Provides humidifiers and electric heaters, electronic actuators, actuated valves and intelligent controllers for the HVAC and Industrial markets.</p>	<p>www.neptronic.com</p>
	<p>Panasonic offers a range of turnkey heating and air conditioning solutions for homes, medium-sized buildings such as offices and restaurants, and large-scale buildings. These offer maximum effectiveness, comply with the strictest environmental standards and meet the most avant-garde construction requirements of our time.</p>	<p>www.business.panasonic.com</p>
	<p>PEP Filters (an Amiad USA company), is a world leader in filtration. PEP offers centrifugal separators, disk filters, sand filtrations, and many other types of filters for cooling towers and other closed loop HVAC systems.</p>	<p>www.pepfilters.com/</p>
	<p>REYMSA offers the future in cooling tower and fluid cooler construction and design. REYMSA's all fiberglass towers with direct drive fan motors offer the longest life, lowest maintenance, and lowest water consumption of any cooling tower on the market.</p>	<p>www.reymsa.com</p>
	<p>Smardt oil-free, magnetic bearing centrifugal chillers offer the highest IPLV energy efficiencies and the lowest lifetime operating costs. Sizes and capacities range from – 60 TR through 1200 TR in water cooled, and 60 TR through 450 TR in air cooled.</p>	<p>www.smardt.com</p>
	<p>Spunstrand® Inc. has a dedicated facility for manufacturing FRP chemical and water storage tanks, carbon scrubbers, ductwork and custom FRP products that serve industrial, commercial and municipal markets.</p>	<p>www.spunstrand.com</p>
	<p>Since 1980, Superior Rex has manufactured an extensive range of fan coils and air handlers in the global marketplace. They produce a wide range of high-quality units -- including custom builds - tested, and labeled before being released for shipment.</p>	<p>www.superiorrex.com</p>
	<p>Since 1946 Titus has provided technologically advanced products that create the highest degree of comfort including registers, diffusers, displacement ventilation, chilled beams, underfloor systems, terminal units and fan coils.</p>	<p>www.titus-hvac.com</p>
	<p>TMI Climate solutions provides quality central utility plants, custom self-contained DX systems, package chiller and boiler plant systems and pumping stems and controls.</p>	<p>www.tmiclimatesolutions.com</p>
	<p>Ventaire designs and manufactures source capture ventilation systems and components for extracting noxious fumes and gases in commercial and industrial applications, including auto dealers, vehicle repair shops, technical colleges, high schools, heavy equipment repair facilities, military bases, firehouses and manufacturing plants.</p>	<p>www.ventaire.com</p>
	<p>Vibro-Acoustics provides engineering expertise on noise control, vibration isolation and restraint systems and indoor climate systems for commercial and industrial applications.</p>	<p>www.vibro-acoustics.com</p>
	<p>VTS is a global leader in the manufacture of commercial air-handling units. VTS produces air-handling units with standard direct drive fans and true thermal break construction. VTS also manufactures direct drive blower coil fan coil units with standard double-wall construction.</p>	<p>www.vtsgroup.com</p>
	<p>Wilo provides the technology and expertise for the operation and application of high-value pumps and pump systems for heating and cooling technology, air-conditioning, water supply and sewage disposal.</p>	<p>www.wilo-usa.com</p>
	<p>Zehnder Rittling is a leading manufacturing offering a full line of room fan coil units, high capacity fan coil units, vertical hi-stack fan coil units, and vertical stack water source heat pumps. They also offer heating products such as convectors, unit heaters, cabinet unit heaters, and induction units.</p>	<p>www.rittling.com</p>
